

Ideal for higher speeds and larger quantities

Powerful shot blasting system for cleaning plates, profiles and tubes

Powerful shot blasting system for cleaning plates, profiles and tubes.
 The GIETART High Speed range is typically used by larger steel traders or steel fabricators, working multiple shifts, and by rolling mills. Designed for more demanding work, this range of machinery is ideal to upgrade your loading and blasting capacity. With the demand for higher speeds and larger quantities, together with maximal performance, the High Speed Blaster is the machine you need.

BENEFITS AT A GLANCE

- > Suitable for a throughput up to 50,000 tons a year, or more
- > High speed, high capacity
- > Fully continuous system
- > Suitable for multiple shift operations
- > Superior performance at the lowest cost of ownership
- > User friendly system, easy to maintain
- > Available with many options
- > Highly efficient, cost effective and competitive system
- > Best blasting and cleaning results

EXCEPTIONAL RELIABILITY AND MAXIMUM UPTIME

MOST ENVIRONMENTALLY FRIENDLY SOLUTIONS

LOWEST COST OF OWNERSHIP

KALTENBACH PROMISES

A SELECTION OF GIETART'S TOP OPTION PACKAGES

Appealing option packages to optimize your shot blasting and painting lines

Blue line

A most environmentally friendly edition

7 Year warranty

Unique edition for extended service life

Wear-resistant

Additional uptime and less maintenance costs

High-end blasting process. Clean working environment. Considerable savings on abrasive material. Reduced energy consumption.

Highly efficient surface treatment for the production of sophisticated, sustainable steel products.

Our experts know your business and the challenges you have to face every day

- EXCEPTIONALLY RELIABLE
- OPTIMAL SHOT BLASTING RESULTS
- MOST ENVIRONMENTALLY FRIENDLY
- LOW RUNNING COSTS

FEATURES

Optimal shot blasting results

- Unique GIETART high-performance turbines
- Thoroughly cleaned steel surface
- Energy efficient blasting process

Unique, durable shot blasting construction

- Extremely stable system through bolted manganese lining
- Best in resistance to wear and reliability
- Maintenance friendly concept

Efficient and effective removal and reuse of abrasive material

- Clean product for further processing
- Considerable savings on abrasive material
- Various brush and blow-off possibilities for removing abrasive

Effective removal of dust and scale from abrasive

- Multi-level cascading air cleaning
- Thoroughly cleaned abrasive
- Optimal and consistent blasting results

Clean working environment

- Sophisticated air filtering system
- Return of purified air to the hall
- Unique GIETART longlife cartridge filters

Easy maintenance

- Good accessibility to important machine components
- Easy exchangeable wear and spare parts
- Higher uptime/performance of the machine by short service stops

HARD FACTS

H T L U - O □

GIETART Shot blasting system		High Speed Blaster 1506	High Speed Blaster 2506	High Speed Blaster 3008
Capacity		Suitable for a throughput up to 50,000 tons per year, or more		
Workspace, max.	mm	1,500 x 600	2,500 x 600	3,200 x 600
Working range - plate	mm	1,500	2,500	3,200
Working range - profile	mm	1,000 x 420	1,000 x 420	1,000 x 420
Number of turbines	pieces	6	6	8
Drive performance per turbine	kW	18.5 - 22		
Degree of automation		automatic infeed - automatic outfeed - fully automatic		
Material class		steel		
Working processes		profiles - solid material - plate		

Creating value via software

From unique machine software to complete management information systems, KALTENBACH will be your system supplier.

Efficient material handling

Designed to ensure an optimal process flow, and therefore the most effective processing of material in your production area.

OPTIONS

- > Brush blow-off section
- > High pressure blow-off section
- > Collection hopper under outfeed transport
- > Automatic refilling system
- > Automatic height adjustment
- > Water blow-off section
- > Noise insulation 85 dB
